**Revisions to Policy 501.2 – Community College Honor Scholarship**

---

**THAT**

The Board of Regents of Higher Education approve revisions to Policy 501.2, regarding the administration of the Community College Honor Scholarship.

---

**EXPLANATION**

Policy 501.2 the entire Policy is revised to include all Montana University System (MUS) two-year campuses (rather than only the Community Colleges). The name has also been revised to reflect this change.

Policy 501.2A is revised to now include all MUS two-year campuses and more clearly define the benefits and limitations of these waivers.

Policy 501.2B has been added to define how the number of scholarships will be determined per campus, and which students from those campuses are eligible to apply.

Policy 501.2C is revised to reflect changes in the application process. In particular, the applications will be processed by OCHE, rather than at the campus level. This ensures the same procedures and scoring are applied to all applications. This revision further explains the criteria that will be used to score and rank the applications.

Policy 501.2D clarifies that these changes will take effect immediately (the next award process is in 2011).
