WHEREAS, despite the fact that there are current significant financing difficulties in the national student loan industry which have reflected themselves in Montana, appropriate actions have been taken such that Montana student loans will be available for the next academic year; and

WHEREAS, because of changes in the national student loan industry, certain financing abilities have been constrained, including some constraint on the ability of Montana students to consolidate their student loans; and

WHEREAS, a proper balance between student benefits and financial risk is a goal to which the BOR aspires; and

WHEREAS, the boards of the Student Assistance Foundation (SAF) and the Montana Higher Education Assistance Foundation (MHESAC), have requested assistance from Congress to help solve the credit problems that face the student loan industry nationally and here in Montana; and

NOW, THEREFORE, BE IT RESOLVED that the Board of Regents of Higher Education:
