

ITEM 148-104-R0710

Revisions to Policy 501.1 - Montana University System Honor Scholarship

THAT

The Board of Regents of Higher Education approve revisions to Policy 501.1, regarding the administration of the Montana University System Honor Scholarships.

EXPLANATION

Policy 501.1.I.A is revised to clarify the target number of awards each year. A sufficient number of scholarships are offered annually with the intent to award a target number of 200 scholarships after relinquishments.

Policy 501.1.I.C. revisions are recommended to update the policy regarding information that is outdated.

Policy 501.1.II.A is revised to allow administration greater flexibility in the application and award processes. Specifically students are now being encouraged to apply online, bypassing the necessity of submitting the application to the high school principal (or designee). This will also expedite the award process, to the benefit of students and high school principals (or designees).

Policy 501.1.II.E is revised by removing information that is no longer pertinent.
