MONTANA BOARD OF REGENTS

LEVEL II REQUEST FORM

Item No.: 146-2854-R0310  Date of Meeting: March 4-5, 2010
Institution: Montana State University-Great Falls COT
Program Title: Associate of Applied Science – Sustainable Energy Technician

Level II proposals require approval by the Board of Regents.

Level II action requested (check all that apply): Level II proposals entail substantive additions to, alterations in, or termination of programs, structures, or administrative or academic entities typically characterized by the (a) addition, reassignment, or elimination of personnel, facilities, or courses of instruction; (b) rearrangement of budgets, cost centers, funding sources; and (c) changes which by implication could impact other campuses within the Montana University System and community colleges. Board policy 303.1 indicates the curricular proposals in this category:

- 1. Change names of degrees (e.g. from B.A. to B.F.A.)
- 2. Implement a new minor or certificate where there is no major or no option in a major;
- ✔ 3. Establish new degrees and add majors to existing degrees;
- 4. Expand/extend approved mission; and
- 5. Any other changes in governance and organization as described in Board of Regents’ Policy 218, such as formation, elimination or consolidation of a college, division, school, department, institute, bureau, center, station, laboratory, or similar unit.

Specify Request:

Four Montana University System institutions (Montana State University-Great Falls College of Technology, Montana State University-Northern, Montana State University-Billings College of Technology and Montana Tech-College of Technology) joined together in a Wind Energy Technology Consortium. The Consortium received a grant from the Department of Labor to develop programs in Industrial Trades and Renewable Energy Technology. The AAS is built upon a common first year Certificate of Applied Science.

To support the forward movement of the foundational common first year (CAS), the institutions requested approval by the Board to offer a Certificate of Applied Science in Energy Technology at the August 3, 2009 meeting. That request was granted and the temporary CAS was approved as a Level I Request. That common first year is in place at two of the partner campuses: MSU-Northern and Montana Tech-College of Technology.

Montana State University Great Falls College of Technology requests approval by the Board to offer the Associate of Applied Science – Sustainable Energy Technician.
