Montana State University (MSU)

Bozeman, MT
Annually bachelor’s degree granting
Undergraduate enrollment: 12,094

**Costs**

What does it typically cost to attend MSU?
The average net price for undergraduate in-state students is $12,489 per year. Net price is what undergraduate students pay after grants and scholarships (financial aid you don’t have to pay back) are subtracted from the institution’s cost of attendance.

The average net price has decreased 0.1% from 2007 to 2009.

Click here to see listings of changes in college costs.
Click here to go to the Net Price Calculator for a better estimate of what your costs would be.

**Graduation Rate**

What percentage of students graduate?
51% of full-time students received their bachelor’s degree within 6 years. Graduation rate data are based on undergraduate students who enrolled full-time and have never enrolled in college before. This may not represent all undergraduates that attend this institution.

**Loan Default Rate**

Are students able to repay their loans after they graduate?
3.4% of borrowers defaulted on their Federal student loans within three years of entering repayment.

National

**Median Borrowing**

What is the typical amount borrowed for a student’s undergraduate study?
Families typically borrow $16,447 in Federal loans for a student’s undergraduate study. The Federal loan payment over 10 years for this amount is approximately $189.27 per month. Your borrowing may be different.

**Employment**

What kinds of jobs do students have when they graduate?
The U.S. Department of Education is working to provide information about the average earnings of former undergraduate students at MSU who borrowed Federal student loans. In the meantime, ask MSU to tell you how many of its graduates get jobs, what kinds of jobs they get, and how much those graduates typically earn.
