Corequisite Remediation Update

Erik Rose
Program Manager
Office of the Commissioner of Higher Education
Problem Restatement

- Roughly 1 in 10 students who place in remedial algebra goes on to graduate

- The percent of students enrolled in remedial math who pass gateway course in 2 years clearly demonstrates remedial education is a barrier to student success:
  - 2013 MUS total: 39%
  - 2013 MUS 2-year total: 30%
  - 2013 MUS 4-year total: 45%

- States such as Georgia, Tennessee, West Virginia, Indiana and Colorado have increased student success in gateway math and English courses from 10-30% to 60-70%+ by replacing prerequisite remediation with corequisite remediation
Path to Scale

May 2013: Complete College Montana Initiative

April 2016: Montana Team Attended National Co-Requisite Academy

November 2016: Statewide Co-Requisite Summit Held in Bozeman

January 2017: Co-Requisite Workshops Held in Butte

February 2017: Implementation Steering Committee Formed

July 2015: Montana Accepted in a CCA Initiative to Scale Co-Requisite Remediation

August 2018: Goal of Scaling Co-Requisite Remediation

Corequisite Implementation Steering Committee

21 members representing all 11 units of the MUS

- Guiding implementation and scale of co-requisite
- Identifying and removing barriers
- Sharing best practices
- Providing updates regarding work plans
