ITEM 184-105-R0919

Revision to BOR Policy 711.1 – Employment Contracts

THAT

The Board of Regents revises Policy 711.1 so that athletic directors who supervise head coaches who are employed on multiyear contracts will be eligible for employment on multiyear contracts.

EXPLANATION

The policy currently allows for the Commissioner of Higher Education to approve a multiyear employment contract term for a head coach of athletics. The proposed policy revision would allow the Commissioner to approve a multiyear employment contract for an athletic director who supervises head coaches who are employed on multiyear contracts. The policy revision would provide the Commissioner with discretion to support and provide stability in athletic program leadership, via multiyear contracts, where and when in the best interest of the university and the system.
