ITEM 212-107-R0524

Request for Authorization to Revise Policy 940.20 – Annual Tuition and Fees for eLearning

THAT

The Board of Regents adopts the proposed revisions to BOR Policy 940.20 – Annual Tuition and Fees for eLearning

EXPLANATION

Policy 940.20 enables MUS institutions to propose a lower tuition rate for non-resident students enrolling in online programs, so that these programs may set competitive tuition rates in the national online learning market. The proposed revisions would 1) amend definitions in the policy to mirror amendments to the board’s definition of distance education program modalities, 2) eliminate references in this policy to an exemption from mandatory fees for distance education students, which will instead be addressed in policy 940.3 - Mandatory Fees, and 3) amend the title of the policy to “Non-resident Tuition and Fees for eLearning”, which better reflects the revised policy’s content.
