Chairman Lind called the meeting to order at 8:00 a.m. Roll call was taken and it was determined a quorum was present.

Deputy Commissioner Noble reviewed the bond resolutions and the memorandum to the Regents dated February 21, 1987 (on file). The resolutions before the Board for approval authorize Montana State University, the University of Montana, and Northern Montana College to prepay Department of Education housing bonds at a substantial discount, and proceed with a restructuring of their respective bonded indebtedness. The prepayment for MSU and U of M will occur next week, with debt restructuring to occur within six to eight weeks. Northern Montana
February 24, 1987

College is still looking at alternatives. No firm date for its restructuring has been established. In order to keep the options for prepayment open, NMC will notify the Department of Education that it intends to prepay the bonds.

Mr. Noble explained the savings the institutions will realize through the prepayments and restructure. For instance, at the University of Montana, the Department of Education will accept $3,785,000 for $5,459,000 of outstanding bonds for a discount of $1,674,000. The savings at MSU will not be as great, but will approximate $770,000.

After discussion, Chairman Lind moved approval of the transaction as outlined, and that Item 54-201-R0287, Item 54-101-R0287, and Item 54-801-R0287, be approved. The motion carried.

The meeting adjourned at 8:05 a.m. The next regularly scheduled meeting of the Board of Regents will be held on March 27, 1987, in Helena, Montana.

Chairman, Board of Regents of Higher Education, Montana University System
