MSU Academic and Administrative Prioritization

MSU Shared Services:

Moving away from fragmentation and duplication and toward seamless delivery of services by teams of professionals

MONTANA STATE UNIVERSITY

125 YEARS · MONTANA STATE UNIVERSITY · IN THE PEOPLE'S INTEREST

5 Administrative and 2 Academic areas working on Prioritization at MSU

- Communications
- Data Analysis and Reporting
- Finance
- Human Resources
- Information Technology

- Doctoral Prioritization
- Advising

Advising

- Bobcat Advising Commons: phase 1 of a comprehensive redesign of academic advising and related student support.

- Scale outcomes-driven lessons learned from Hilleman Scholars, Sophomore Surge, and national models such as Complete College America

Doctoral Program Prioritization

- Appraise MSU doctoral programs on the basis of productivity, quality, demand and impact

- Improve the entire portfolio of doctoral programs and identify pathways for increased success

Lessons Learned:

- Focus on the work that needs to get done by creating new projects to bring together a community of professionals.
- Working together on projects builds trust and respect.
- Create teams united under a vision of the instructional big picture.
- It's not about subtracting costs, it's about capacity, quality, service and compliance.
- Communicate, communicate, communicate.
