

Visual Communications Building Classroom Addition

MUS-AO-10

Montana State University

Project Cost: \$10,000,000

Long Range Building Plan Request

The project will add classroom space to the Visual Communications Building concurrently with the Montana PBS expansion project. The project will increase the number of registrar-managed classrooms in cost effective manner.

Existing Condition

- Limited registrar-managed instructional spaces.
- The Montana PBS project provides a pathway for cost-effective and efficient construction.

Benefit to MSU

- Increase the number of registrar-managed classrooms to meet the demand of the
- University's course offerings for students. Enhanced educational experience and foster interdisciplinary opportunities.
