I. Traveling is a necessary operation of state government. Travel expense can be a major budget consideration, so employees must be aware of the need for efficiency and economy in travel. The responsibility for adhering to the laws and policies and providing effective managerial control rests with the employee and their agency. Any collective bargaining agreement providing a greater meal or travel reimbursement supersedes this policy per the Montana Operations Manual Policy (MOMs).

A. Travel

All overnight in-state, out-of-state, and foreign travel requires advance approval from the employee’s immediate supervisor via the In-State Travel or Out-of-State Travel Justification Forms. For day travel in-state, the signed motorpool slip serves as your travel approval. Transportation costs and time away from the office should be kept to a minimum. When commercial travel is used, employees should use the least expensive seating available (Per MOM’s Employee Travel Policy).

B. Meals and Lodging Reimbursement

Employees will be reimbursed for meals and lodging while away from the employee’s designated headquarters and engaged in official state business in accordance with 2-18-501 et seq., MCA.

   a. The immediate supervisor, designee, or the supervisor having the most direct knowledge of the travel-related activities must approve the employee's travel expense voucher (Per MOM's Employee Travel Policy).

2. Travel expense vouchers should be presented once a month for all travel in that month. F. Increases in Reimbursement Rates

The reimbursement rates provided herein may be changed from time to time by action of the legislature. If a conflict exists between this policy and the statute authorizing the rates, the statute shall prevail.

G. Travel Expenses

Reimbursable travel expenses are the business-related expenses incurred when traveling on official state business. Nonbusiness-related expenses incurred when taking vacation or compensatory time off while in a travel status are not reimbursable. Typically, reimbursable business travel expenses include transportation costs (airfare and/or ground-transporting vehicles), meals, and lodging.

Miscellaneous business expenses associated with official state travel may also be reimbursable, including necessary supplies; airline baggage for one bag, unless special circumstances are preapproved, and seat fees not due to upgrades; airline insurance that solely protects against trip cancellation or re-booking fees; taxi fares including a reasonable tip, (not to exceed 20% of total cost); and parking fees excluding parking tickets issued for non-compliance with city/county/airport authority rules, unless the agency director, or designated approving authority, authorizes reimbursement of parking tickets issued as a result of extenuating circumstances that the employee could not avoid.

When renting a vehicle, employees must not purchase additional liability, comprehensive, or collision insurance offered by the rental agency. Insurance is provided for the employee either through the DOA-Risk Management and Tort Defense, or by the state procurement card company when the rental vehicle is paid for with the state-issued purchasing card.

Each reimbursable expense of $25 or more must be supported by a receipt; however, an agency director may require receipts for all expenses, including those less than $25, be provided as proof for reimbursable travel expenses. Meal tips and meal taxes are not considered miscellaneous expenses.

All travel reimbursements, excluding the Montana University System (MUS), are to be issued through the state payroll system. Employees are encouraged to use a state issued purchasing card for their traveling expenses, exclusive of meals. Employee meals are typically reimbursed at a fixed per diem rate, not at actual cost, and should not be purchased with a state-issued purchasing card (Per MOM’s Employee Travel Policy).

II. Mode of Transportation

An employee shall utilize the most efficient and economical mode of transportation for official state business. Whenever possible, consideration should be given the possibility of coordinating multiple state employees' business travel arrangements, so costs may be pooled and provide the state with cost savings. For example, car-pooling with multiple employees in a single vehicle may provide statewide cost-savings above what it will cost for each individual to purchase an airline ticket, even if the time needed to drive is greater than the flight time. Agencies are encouraged to work together in efforts to keep statewide costs down (Per MOM's Employee Travel Policy).
A. Employees using commercial airline travel should choose seat assignments in the lowest cost sections available on the aircraft. Baggage should be maintained at the minimum necessary for the purpose of the employee's travel. Miscellaneous aircraft charges, such as in-flight internet access, must be related to official state travel to be eligible for reimbursement.

1. Ticket Purchase Agencies and employees are required to use a state purchasing card to purchase all airline tickets for employee travel unless it can be documented that another payment method is in the state's best interest. This applies to ticket purchases made through a travel agent, purchased directly from an airline, or purchased from an online travel source. Agencies and employees are strictly forbidden to use a state purchasing card to purchase an airline ticket for an individual who is not traveling on official state business. If an employee traveling on official state business is being accompanied by a traveler not on official state business, and it is necessary that they travel at the same time and on the same flight, it may be necessary that both tickets are purchased at the same time. With approval from the agency director, or other approving authority, this scenario could constitute a situation when it is in the state's best interest to use a payment method other than a state purchasing card.

B. Employees should contact the State Motor Pool, operated by the Department of Transportation, which a variety of vehicles available in Helena. The employee must use motor pool vehicles for business travel whenever possible. Direct questions regarding procedures to the motor pool office at 444-2705.

State Vehicle Use Rules govern the use of state-owned or leased vehicles from the motor pool. The motor pool bills the agencies periodically for the vehicles used. Agencies that have their own state vehicles should establish rules regarding the use of their vehicles.

If motor pool vehicles are not available, the employee has the option to use their personal vehicle or vehicles from a private rental agency contract. Employees who wish to use their personal vehicle for official business travel should be familiar with the requirements in the Mileage Reimbursement Rates policy available on the Employee Travel webpage and must obtain approval prior to travel via the Personal Vehicle Use Authorization form located on the OCHE intranet (Per MOM's Employee Travel Policy).
