PROGRAM FACTS

If MSU stood alone, with its more than 12,000 students and 2,400 employees, it would be the 8th largest city in the state.

At the Bozeman campus, MSU owns & maintains over 120 buildings representing a total of ~5 million gross square feet of space and a current replacement value of ~$15 billion.

MSU also owns and maintains its own primary electric, water/sewer and natural gas distribution systems.

MSU is a community with its own culture, citizenry, governance, teachers, classrooms facilities, communications systems, land, historic buildings, food services, hi-tech buildings, housing facilities, research labs, sports facilities, utilities and infrastructure systems, and even a morgue.

MSU owns and maintains its own street system, parking facilities, municipal lighting, and utility systems, and its own telephone system serving over 5,700 handsets. MSU also operates a community post office under federal contract.
